

Dispatching • Messaging • Navigation

MARCUS® GPS Fleet Management and MARCUS DRIVE option for In-vehicle Tracking, Dispatching, Messaging Services, and Turn-by-Turn Voice Navigation

Dispatch:

Schedule, dispatch and manage your fleet with the MARCUS® web application.

- Send new daily jobs to a mobile
- View up-to-date job status
- View jobs for a single vehicle or the entire fleet
- Re-route itineraries based on business demands
- View real-time traffic to gauge accurate estimated arrival times

Communicate:

Communicate instantly via two-way messaging between the office and in-vehicle Garmin device.

- Send and receive messages to/from the office and Garmin device
- Create instant routes, messages, or re-route a vehicle
- Receive driver acknowledgement of job status
- View history of fleet communications

Navigate:

Navigate safely and accurately while improving operations and optimizing customer service.

- Automatic voice guided turn-by-turn directions
- Choose job order based on proximity
- Receive accurate estimated time of arrivals
- Update routes to avoid traffic
- Receive notification for job arrivals
